

温州肯恩大学
WENZHOUCHEAN UNIVERSITY

Course Information

Course Title: Strategic Mgt Global Info Sys

Course Number and Section: GMBA 5885 W02

Campus Location: Wenzhou-Kean University

Semester: Spring 2026

Meeting Days and Times:

09:00 – 12:00, 13:00 – 17:30

04/18 Sat, 04/19 Sun, 04/25 Sat, 05/10 Sun, 05/16 Sat, 05/17 Sun

Meeting Location: CBPM C423

Instructor Information

Instructor Name: Dawei CHEN

Office Location: CBPM B214

Office Hours: Tue & Thu 11:15 – 12:30 | Wed 14:00 – 16:30

Email: dchen@kean.edu

Course Description

This course introduces students to the main issues in global information system management, and examines how managers can use IT on a global basis to achieve strategic business advantage. The focus is on the management of information systems and technology in a global context including planning, infrastructure, applications, business processes, and IT operations. The course further examines how artificial intelligence (AI) is transforming information system and managerial practice, and equips students with strategic frameworks for analysing IS-enabled competition.

Course Level Student Learning Outcomes

Upon successful completion of this course, the student will be able to:

- Describe the applications of technology in a global enterprise
- Analyze the strategic use of information resources
- Formulate policies to manage and govern the IS function

- Evaluate the security and privacy of information

Section Level Student Learning Outcomes

In addition to the Course-level outcomes above, upon completion of this section, the student will be able to:

- Integrate conceptual frameworks from the course with their own managerial experience to diagnose IS-related problems and design AI-enabled strategic solutions
- Explain how AI create business value and identify AI-enabled use cases within their own organizations
- Apply the 4D AI Fluency framework and associated practices – including prompt, context, and harness engineering, as well as the design of reusable skills and agents – to managerial workflows.
- Apply game-theoretic reasoning and strategic-thinking frameworks to analyze competitive and cooperative dynamics in digital markets and IS-enabled ecosystems

Instructional Method

- *Interactive lectures:* introduce core concepts, strategic frameworks, and emerging topics in global information systems and AI.
- *In-class case analysis:* apply theory to real business scenarios, emphasizing strategic alignment, system evaluation, and managerial decision-making.
- *Experience-based discussion:* leverage students' own professional backgrounds to connect course frameworks with lived managerial practice.
- *Group project:* analyze a real company, evaluate its information system, and design an AI-enabled strategic solution across proposal, presentation, and final report stages.

Course Materials

- Laudon, K. C., Laudon, J. P., & Traver, C. G. (2025). *Management information systems: Managing the digital firm* (18th ed.). Pearson.
- Pearlson, K. E., Saunders, C. S., & Galletta, D. F. (2024). *Managing & using information systems: A strategic approach* (8th ed.). Wiley.

[Additional reading materials will be provided as needed.]

Course Schedule

Date		Topics	Activities
04-18 Sat	AM	Course Introduction & House Rule	Icebreaker; course roadmap
	PM	Introduction to MIS (Laudon Ch1)	Case study: UPS
04-19	AM	Information Systems Strategy Triangle	Case study: Judo Bank

Sun		(Pearlson Ch1)	
	PM	Strategic Use of Information Resources (Pearlson Ch2, Laudon Ch3)	Case study: TBD
04-25 Sat	AM	MIS and Digital Transformation (Pearlson Ch5, Laudon Ch9)	Case study: Tsingtao Brewery Students share digital transformation initiatives from their own organizations
	PM	Ethical and Social Issues in MIS (Pearlson Ch13, Laudon Ch4)	Mini group presentation: students share experience on ethical and social issues in MIS
Proposal submission due on May 9 (Saturday), 23:59 (Beijing Time)			
05-10 Sun	AM	AI in Organization: Business Value and Strategic Use Cases	Case study: Baidu intelligent recruitment Identify AI opportunity in your organizations
	PM	AI Fluency at the Individual Level: Prompt, Context, and Harness Engineering; Skills and Agents	4D AI Fluency Framework exercise
05-16 Sat	AM	Game Theory and Strategic Thinking	Classroom games; structured decision analysis; cased-based application to IS and platform competition
	PM	TBD	
05-17 Sun	AM	Group Project Presentation	20 min presentation + 5 min Q&A per group
	PM	Final Report Drafting	Instructor office hours for group consultation
Final report submission due on May 23 (Saturday), 23:59 (Beijing Time)			

**The schedule is tentative and may be adjusted based on class progress.*

Course Assessment

Grade Breakdown		
Individual	Attendance	10%
	Participation	10%
Group	Case Analysis	20%
	Proposal	20%
	Presentation	20%
	Final Report	20%
	Total	100%

1. Attendance (10%)

Students are expected to attend all class sessions. Absence requests must be submitted via email (dchen@kean.edu) with appropriate supporting documentation.

- 1 point will be deducted for each half-day absence, regardless of reason.
- Students who miss more than 2 full days (four half-days) are required to retake the course

2. Participation (10%)

Participation is assessed based on engagement in class discussions, activities, and overall contribution (both frequency and quality) to the learning environment.

3. Case Analysis (20%)

This component includes case discussions, mini group presentations, and games. Assessment focuses on preparation, analytical depth, and contribution.

4. Group Project (60%)

The group project consists of three stages: proposal (20%), presentation (20%) and final report (20%). Please refer to the group project instructions for detailed requirements.

Grading Scale

Grade	Percentage Range
A	≥ 93
A ⁻	90 – 92.9
B ⁺	86 – 89.9
B	83 – 85.9
B ⁻	80 – 82.9
C ⁺	76 – 79.9
C	70 – 75.9
D	60 – 69.9
F	≤ 59.9
IN	Incomplete
